SUMMARY

A passionate Full Stack Web Developer skilled in MERN stack, Developing websites using Javascript, ReactJs, NextJs, Node.js, Express.js , and MongoDB. Looking forward to opportunities that can bring challenges and learnings to leverage and hone skills.

EXPERIENCE

Full Stack Developer
Skysoft Global Pvt. Ltd.
📅 May 2023 - Present (6 Months)

Responsibilities:
- Develop robust RESTful APIs and dynamic web applications using Node.js, NestJS, and GraphQL.
- Lead end-to-end web development, integrating React, Next.js, HTML, CSS, and Material-UI for seamless user experiences.
- Collaborate directly with the CEO, translating business requirements into technical solutions.
- Optimize and enhance codebases authored by foreign developers, emphasizing automation and efficiency.

PROJECTS

1. **KOOAPP CLONE** | Github Link | Deployed Link
Koo is an Indian microblogging and social networking service, based in Bengaluru, India. As of November 2022, the company is valued at over $275 million.
Features:
- Developed a responsive and user-friendly web application with user profile creation, login, and signup functionality.
- Enabled users to upload posts, images, and delete posts.
- Implemented a "like" feature to enable users to interact with posts and a commenting feature to facilitate discussions.
- Incorporated the ability to upload posts in multiple languages to expand the reach of the application.

Tech Stack:
ReactJS | Redux |Bootstrap | NodeJS | ExpressJS | MongoDB

Area of responsibility:
It is an Individual Project hence built completely by me.
